DESCRIPTION

(US 101 @ Kanan) Kanan Road Corridor, between Northern City Limits and Cornell Way. PSR-PDS phase to include analysis of Kanan Corridor between Northern City Limits and Cornell Way in Agoura Hills. Project will analyze various options to improve safety and mobility through the corridor for multiple modes of transport (vehicle, ped, bike), and will consider, among other things, signal timing, interchange improvements, road widening, lane reconfiguring, etc.

DESCRIPTION		

The project will extend the HOV lanes on I-5 from the SR-14 interchange to just south of the Parker Road interchange (I-5 PM 45.4 - 59.0), incorporating an additional northbound truck climbing lane from SR 14 to Calgrove Boulevard and an additional southbound truck climbing lane from Pico Canyon Road/Lyons Avenue to SR-14. Includes ITS HUB (I-5 PM 41.4 - 43.8) and extended project limits related to pavement delineation and advanced signage (I-5 PM 45.0 - 59.6).

DESCRIPTION

The project is located parallel to 12 miles of the I-710 between SR-91 (Artesia Blvd) to SR-60 (Cesar Chavez Ave). The project consists of implementing Intelligent Transportation System (ITS) improvements such as communication upgrades, signal upgrades, signs, ramp metering, detection, cameras and systems throughout the corridor to more effectively manage congestion. No new Right-of-Way (ROW) acquisition is expected. All improvements are within the highway existing footprint.

DESCRIPTION								

Project includes approximately one mile of new soundwalls along I-210 freeway from 0.2 miles west of Marengo Ave to Wilson Ave in the City of Pasadena and approximately 1.5 miles of soundwalls from Baldwin Ave to Santa Anita Ave in the City of Arcadia. Also includes 600-foot sections of soundwalls on the SR-134 east of Cahuenga Blvd near Arcola St and at Santa Anita off-ramp. I-210 PM: 25.3/26.6 & 30.8/32.2. SR-134 PM: R1.2/R1.4. Use TC \$6.303M in FY24/25 in CON to match HIP. Toll Credits Used.

The purpose of this Project is to eliminate bottleneck locations, improve safety and improve operations due to future traffic demands for SR-14. Major objectives considered in developing the Project include improvements to safety, traffic flow, time reliability, while accommodating future traffic growth.

DESCRIPTION

Pacific Coast Highway (PCH) Signal Systems Improvements from John Tyler Drive to Topanga Canyon Boulevard. The project limits are approximately 8 miles and include 12 signals along PCH. The project intends to interconnect the traffic signals to enable Caltrans to monitor and control the signals remotely and, if possible, for the traffic signals to adjust to real time traffic conditions. The project will also include additional intersection and traffic improvements.

DESCRIPTION

This project consists of constructing a raised median within 500 feet at the intersection of Pacific Coast Highway (PCH) and Paradise Cove Road in both directions wherever a double-double yellow line exists and extend the northbound left-turn lane by 100 ft. This project will also construct raised medians in areas where double-yellow lines exist in the vicinity of Zuma Beach, especially where yellow posts are currently installed.
